"KLEMM" ADJUSTABLE REFLECTORS

For Lighting Oculists' Test-Cards

Made 4 inches wide and 20 inches long and lined with Corrugated Silvered Glass.

Arranged with Ground Glass face so as to reflect an even light all over the test-card.

Finished dull-black.

No. 1716

No. 1716 for 2 lights.....\$13 50

Price includes wiring and sockets.

Reflectors are mounted on frame so as to make them adjustable to almost any position or angle that may be required for lighting the test-card.

"KLEMM" ADJUSTABLE BOWLING-ALLEY REFLECTORS

For Lighting Bowling Alleys, Pictures and Store Windows

No. 910

Lined with Corrugated Silvered Glass and finished Dull Black. Four or five of these Reflectors evenly spaced, over the gutter between two alleys and one over each set of pins. Hang the Reflectors six feet from floor and adjust with the set-screws on each side so that the reflected light from one will melt into the light from the one in front of it. When so hung and adjusted, they will light two alleys brightly and evenly, without allowing the lamp to be seen by the player.

No. 910 Price, including Electric Socket.....\$10 00 each

No. 912 Same design as No. 910 with the Reflector finished

Aluminum instead of Silvered Glass..... 6 75

PICTURE LIGHTING STAND REFLECTOR

This style also makes an excellent Reflector for lighting pictures and can be arranged on an adjustable floor stand, which can be moved around a room to reflect the light on any desired picture.

No. 910 Arranged to hang from ceiling.....\$10 00 each

No. 911 Arranged on adjustable floor stand..... 16 50 each

"KLEMM" BILLIARD-TABLE REFLECTORS

Suitable for Lighting Billiard and Pool Tables

36 inches long by 15 inches wide, and finished Aluminum Bronze on the inside and Dark Green with gold ornamentation outside. Canopies and Fixtures are Brush Brass.

No. 991

No. 991 Arranged for three lights.....

No. 993 Same as No. 991, finished plain, without ornamentation.\$13.25

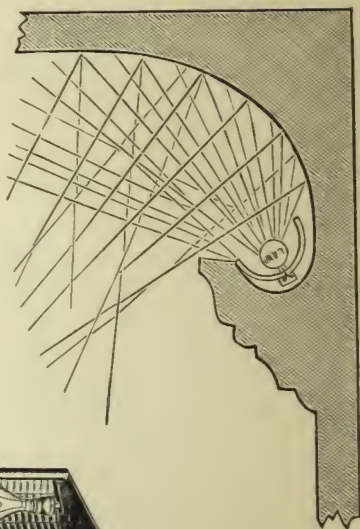

Wiring and Sockets. \$1.00 each extra.

These Reflectors, when hung about six feet from the floor, will light a billiard table perfectly and will, at the same time, screen the lights from the eyes of the players.

"KLEMM" CORNICE REFLECTORS

To Light Churches, Halls and Rooms

By Indirect Rays of Light.

No. 1255

Made to go on top of Cornice and reflect the light against ceiling. The light is diffused from ceiling over the whole room and, by that means, a mellow light is obtained over the room without the source of light being seen. Size of Reflector must be governed by width of Cornice, so that the Reflector will be hidden from view. Best results are obtained by having a light-colored ceiling and lights can be spaced 8 to 24 inches apart.

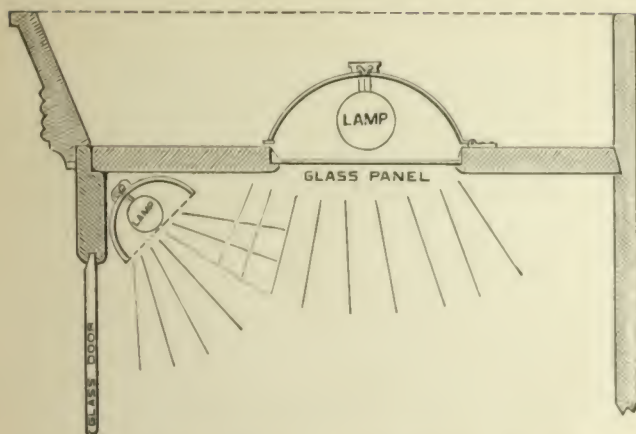

No. 1255x2—2½	inch, lined with Corrugated Silvered Glass,	\$2 00	per ft.
No. 1255x3—3	" " " " " "	2 10	" "

No. 1257x5—5	" " " " " "	1 75	" "
No. 1257x6—6	" " " " " "	1 90	" "

Sockets and Wiring charged at \$1.00 per light extra.

No. 1255x2, No. 1255x3, No. 1257x2 and No. 1257x3 require the use of tubular lamps.

"KLEMM" SHOW-CASE REFLECTORS

For Lighting Floor and Wall Cases

Above sketch illustrates two different modes of lighting Floor and Wall Cases. Centre Panel Reflector is hinged on one side and made to cover glass panels in ceiling of case. Reflectors (No. 1240, No. 1242, or No. 1244) when in place above ground glass panels, are entirely hidden from view, and will diffuse light over all contents of case.

The Corner Reflectors (No. 1248, or No. 1250) are made to extend entire length of case and are hidden from view by the wooden ledge at the top of case, and held in position by adjustable brackets at ends, which allow you to adjust the reflectors to get best results.

Centre Panel Reflectors

		Price Per Foot

Sockets and Wiring \$1.00 per light extra. Standards to support Reflector charged at \$1.80 each extra.

Stock Quotation-Board Reflectors

Use either our No. 1416x5 or No. 1417x5 Reflectors with the brackets made to attach to wall or ceiling.

"KLEMM" BANK DESK REFLECTORS

For Lighting Tables and Bookkeepers' Desks

No. 1434

Lined with Corrugated Silvered Glass.

Fastened to top of desk by upright standards and regulated in height so as to light the whole of desk evenly and keep the light out of the eyes of the person at desk. Made of any required length to suit length of desks. Lights spaced one to two feet apart, according to the amount of light required. Measure 8 inches wide.

No. 1434	Finished Dull Black or Green.....	\$5 50	per foot
No. 1435	" Statuary Bronze.....	8 50	" "
No. 1436	" Brush Brass.....	12 50	" "

Sockets and wiring \$1.00 per light extra.

Standards to support reflector in place charged at \$1.80 each extra.

"KLEMM" COUNTING-HOUSE REFLECTORS

For Lighting Bank and Counting-House Desks

No. 1410

Lined with Corrugated Silvered Glass. Can be adjusted to any required angle for lighting desks. Measure 4 inches wide and made in lengths to fit spaces required to be lighted. Lights spaced one to two feet apart.

No. 1410	Finished Dull Black or Green.....	\$4 50	per foot
No. 1411	" Statuary Bronze	6 00	" "
No. 1412	" Brush Brass	9 00	" "

Sockets and Wiring \$1.00 per light extra. Brackets to hold reflectors in place, charged extra. Dull Black or Green finish at 60c, Brush Brass at \$1.20, Statuary Bronze at \$1.00 each.

This style of reflector can be mounted on standards similar to No. 1414 to be used on one-sided Bookkeepers' Desks. Standards extra at \$1.80 each.

"KLEMM" BANK-RAILING REFLECTORS

For Lighting Bank and Counting-House Desks

No. 1438

Lined with Corrugated Silvered Glass. Measure 5 inches wide and made in lengths to fit spaces required to be lighted. Lights spaced one to two feet apart. Arranged with diffusive glass on the bottom to conceal lamps and reflect the light evenly over desk.

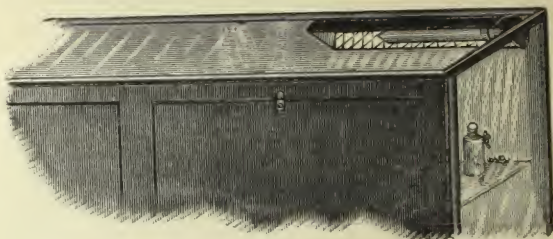

No. 1438	Finished Dull Black or Green.....	\$6 00 per foot
No. 1439	" Statuary Bronze	8 50 " "
No. 1440	" Brush Brass	11 50 " "
